ARToptions Rouge Cluster Kit Directions

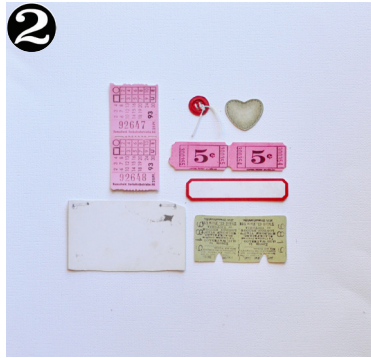

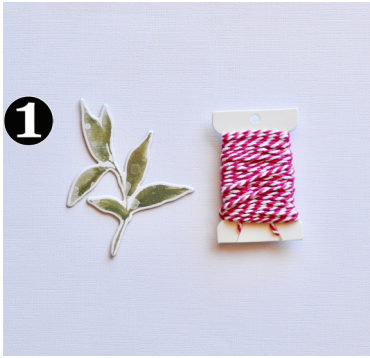

TOOLS REQUIRED: Paper Trimmer, Double-Sided Tape or Glue, Craft Knife and Scissors.
Optional: Foam Tape, Ink and Sanding Tool.

PREPARATION: Carefully remove all the laser cuts and printed chipboard from the packaging. Using a craft knife, turn to the reverse of the sheet and carefully cut the “pins” or nodules off each of the pieces. Sand off any residue of the nodules to leave a smooth edge. Each of the layout directions will show the first image of the chipboard and ephemera (string, clips, elastic and buttons) used in that cluster. The second image will show all the laser cuts used.

LEVEL-UP Tips (optional): When creating your clusters, use ink or distress edges with a tool to give more of an added vintage look with dimension. In addition, if hiding elements under other layers, trim accordingly to use the unseen pieces on future projects.

Step 4 – Adhere the last of ephemera pieces - the light pink ticket and green heart. Tie a bow using the twine, adhere and then add a laser cut button over the top. Image 5.
