Vintage Artistry Tranquility Cluster Kit Directions

TOOLS REQUIRED:

Paper Trimmer, Double-Sided Tape or Glue, Craft Knife and Scissors.

Optional: Hole Punch, Eyelet Setter, Foam Tape & Sanding Tool.

PREPARATION: Carefully remove all the laser cut pieces and printed chipboard from the packaging. Using a craft knife, turn to the reverse of the sheet and carefully cut the "pins" or nodules off each of the pieces. Sand off any residue of the nodules to leave a smooth edge. Each of the cluster directions will have an image of all the laser cuts, chipboard and ephemera used in that cluster.

Cluster #1

Step 1 – Gather the pieces shown in Image 1. The tag is chipboard and all remaining pieces are from the laser cut sheet. You can use the cover sheet to see detailed images of pieces required.

LEVEL UP: You can distress or ink the edges of the ephemera pieces for a more vintage look.

Step 2 – Start with the laser cut window as the base of the cluster. Adhere the first layer of ephemera pieces - the green double ticket and the white chipboard tag. Image 2.

Step 3 – Adhere the floral cluster, overlapping the tag and ticket, then add the white foliage. Image 3.

TIP: You can trim the parts of the floral cluster or bottom of the white foliage and keep the pieces that would be hidden under the layers for another project.

TIP: You can use the chipboard backing sheet or foam tape under the top edge of the rose so it lays flat with the tag.

Step 4 – Adhere the third layer of ephemera pieces - “The Very Best” circle, green fabric bow and green peg. Image 4.

LEVEL UP: You can add this cluster to a scrapbooking layout, mini album, folio, card front, ATC or in a mini frame.
